

## Get to know me...

Providing you with candid images that document your day, as it unfolds... I'm Hannah, a 20 something year old professional photographer, based in Norfolk. Two of my passions, other than photography, are travelling and meeting new people. Capturing weddings allows me to do all of these things and I can honestly say that I LOVE what I do.

# My Background...

From a young age, i've always been snap happy with a camera. After studying Media at school and college, I decided to start my own business and was lucky enough to be approached to photograph my first wedding in 2015. I've not looked back since and have had the pleasure of capturing so many beautiful weddings in and around Norfolk.

Capturing moments as they unfold, without intervening is the way I roll. The natural shots (aka candid's) are my absolute favourites and I can guarantee they will be yours too! I'm not afraid to make a fool of myself by making you laugh so you feel at ease, as I believe this is the way to achieve THE shot to proudly hang on your wall, that will continue to mark those special memories for years to come.

# On The Day...

I will descreetly snap away throughout your day, documenting all of the big and small moments - some of which you may have missed! Being a wedding photographer means you're in the right place at the right time and are constantly keeping an eye out for those special moments. From the father of the bride seeing his daughter in her dress for the first time, the happy tears during the ceremony, the outbursts of laughter during the speeches and the crazy dancefloor antics in the evening - consider it covered!

# ...On The Day

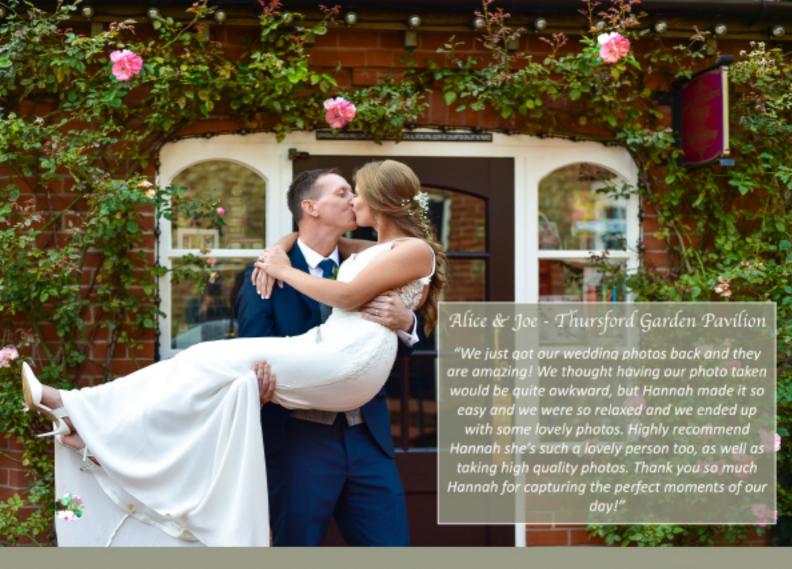

The best way to describe my shooting style, is candid with just a little formality during the group shots. Here I will assist in helping to gather your guests for the must have family snapshots. If need be, I can advise on posing and make you and your guests feel at ease to capture the all important group shots that mustn't be missed for your wedding album. The rest of the day I'll take a step back and snap away naturally as the day takes place, creating those timeless images that portray true love and emotion — at its finest.

# Professional Wedding Photos Are So Important...

"There is so much to plan for our wedding and it is difficult to know where to begin" - I hear you! But your wedding photography really is one of the most important parts, because once the day draws to a close, it is the photographs and memories that you are left with from what is arguably THE best day of your lives! Your big day only happens once, so your images have to be perfect and are truly worth their weight in gold!

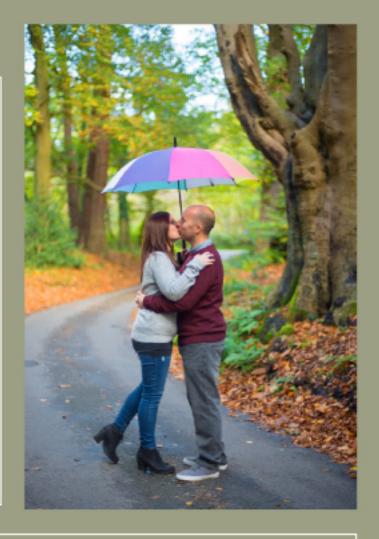

# Pre-Wedding Photo Shoot

If only I had a £1 for everytime I've heard the words "I feel awkward in front of a camera!" My packages include a 2 hour pre-wedding photo shoot in Norfolk and I promise you this isn't as scary as it sounds. Just think of it as a leisurely stroll through the woods, fields, along the beach or amongst some ruins, while having a natter and a giggle. I try to make it as fun and relaxed as possible as I casually snap away against different backgrounds. I encourage you to snuggle up and look away from the camera (so you can pretend I'm not there) and the less posed the better, as this is what creates those gorgeous candid shots that document the true emotions between you, as a couple.

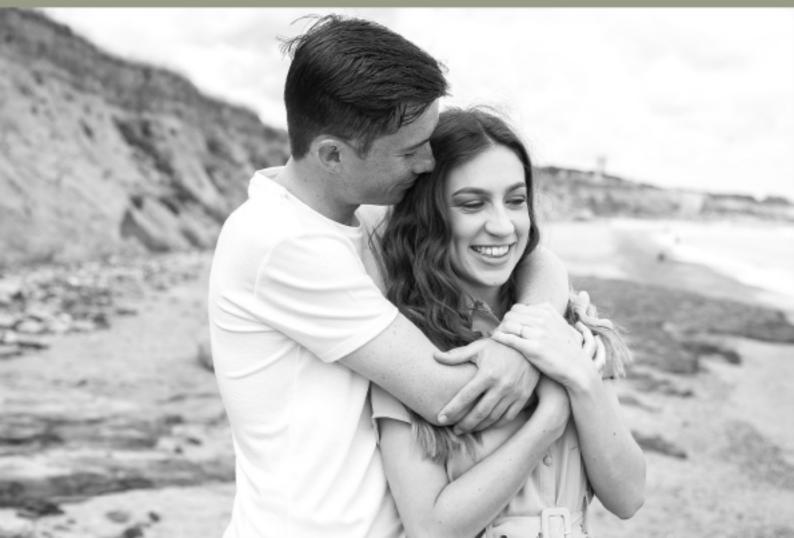

Pre-wedding shoot's allow me to get to know you better and for you to see how I work, as well as discovering what poses work best for you. This saves a lot of time on your wedding day, as you already know how to ace your poses, based on your favourites from your pre-wedding shoot. Think of it as a trial run, like you'd have for your wedding suit or make-up!

It's also nice to have some professional photos taken that are a little less formal, in your everyday clothes. Pre-wedding photo shoots can take place any time before your wedding. You could always have a contrasting season to add variation to your wedding day - Autumnal shoots can look really stunning!

# Back Up Equipment

It is so important as a wedding photographer to have back up equipment. On the day you will see me using two cameras to achieve a variety of shots. Each camera records to two memory cards, meaning every single shot is duplicated! I also have ample lenses, batteries, memory cards and flashes - just in case!

### Insurance

Another very important factor, is insurance. I have public liability and professional indemnity insurance with Aaduki, who are a specialist insurance company for professional photographers. My equipment is regularly PAT tested and you will be greeted with a friendly and professional service, every step of the way.

### Presentation

# Wedding Photos

You will recieve your wedding photos on a wooden USB stick, engraved with your names, tucked inside a personalised handcrafted maple wood box. Hand deliveries will arrive in a recyclable brown paper bag - promoting the use of natural materials.

# Pre-wedding Photos

Your pre-wedding photos will be provided to you on a standard SanDisk USB, in a mini handcrafted hessian bag.

All of your photos will arrive in high resolution ready for you to copy, print and share as much as you wish - i'd love for you to tag me in any that you share!

# Packages

I offer two main packages but because no two weddings are the same, I also offer bespoke packages that are tailored specifically to your requirements, no matter how long or short your day. If this is of interest, please do get in touch for more information.

#### WEDDING PHOTOGRAPHY - FULL DAY:

A pre-wedding consultation.

A 2 hour pre-wedding photo shoot at a location of your choice, within Norfolk. With 50+ photos provided on a SanDisk USB for you to print, copy and share as much as you wish.

Coverage from bridal prep until an hour after the first dance.

Between 500-800+ high resolution images within 4-8 weeks of your wedding.

Professionally edited and delivered to you on a beautifully handcrafted and personalised maple wood USB stick and box.

Permission to print, copy and share as much as you wish.

£1,100

#### WEDDING PHOTOGRAPHY - HALF DAY:

A pre-wedding consultation.

A 2 hour pre-wedding photo-shoot at a location of your choice, within Norfolk. With 50+ photos provided on a SanDisk USB for you to print, copy and share as much as you wish.

5 hours coverage of your day. This will include the ceremony until the end of the speeches.

You will receive between 300-600+ images within 4-8 weeks of your wedding.

Professionally edited and delivered to you on a beautifully handcrafted and personalised maple wood USB stick and box.

Permission to print, copy and share as much as you wish.

£850

### Finer Details

### Travel...

My packages include travel within Norfolk, however I absolutely love visiting new places, so if you are planning a wedding in the UK or abroad, I would be happy to discuss travel and accommodation with you - it may not be as expensive as you think!

### Albums...

You will recieve all of your photos on a USB with permission to print, copy and share as much as you wish, but if you would like some individual prints or an album, just choose your favourites and I will happily design one for you.

### Pre-Wedding Meeting

As well as your pre-wedding photo shoot, I always recommend meeting at the venue prior to your wedding. It is an ideal time to discuss timings and logistics for your day, along with any restrictions that your registrar or venue may have.

### Payment

If you're happy to book - YAY! All that is required is a £200 deposit and a signed contract. Once I have received both of these, your booking is confirmed! The balance is due two weeks before your wedding.

### Questions Answered...

#### How far in advance do we need to book?

It is never too early to book. Even if you don't know the finer details, it is best to book sooner rather than later to avoid disappointment. I take bookings up to 2 years in advance so as long as you have your date set, you're good to go!

#### How many photos will we recieve?

I choose not to hold back on the number of images I deliver, so as long as nobody has their eyes closed and it's not a duplicate shot, you will recieve all of the images. You can expect anything from 300-800+, depending on how long I'm with you on the day.

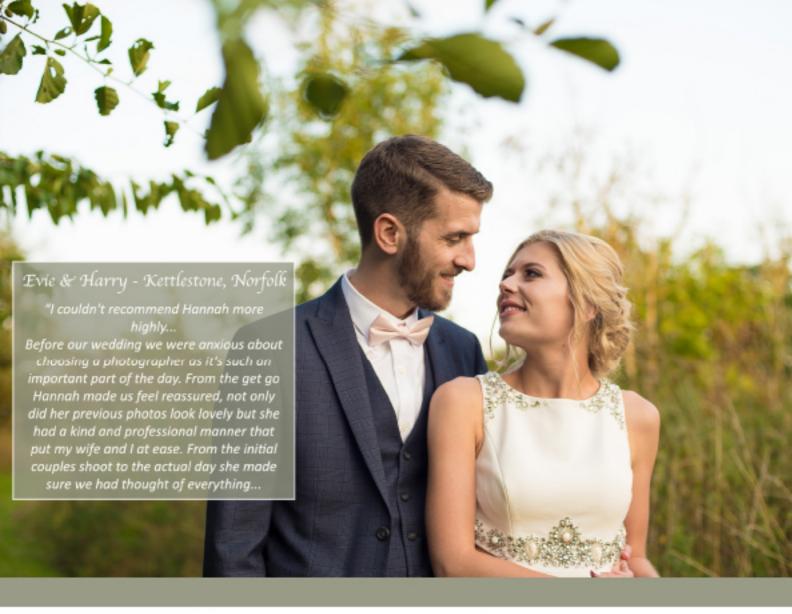

#### How do you edit our photos?

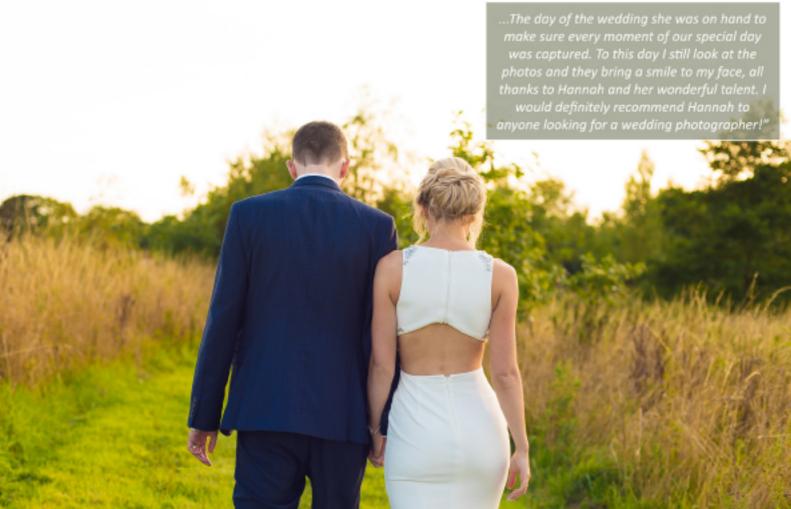

My edit style is natural, clean and vibrant meaning your photos wont look dated in years to come. I use Lightroom to achieve consistancy across all images and each photo is individually edited with care and precision.

### Do you require a meal?

I always bring food with me and take a break during your wedding breakfast, as let's face it, nobody wants to be photographed while they're eating! However, if you do wish to provide a meal, it would be greatly appreciated but please don't feel that you have to!
